

### KISAR Team 3 Instructions

1. Proceed from TP00 to TP03 (shown on map; 57.8397°, -152.4369°) and document the location (verify lat/lon, photograph waypoint placard, etc).
2. Proceed from TP03 to TP45 (not shown on map) located at 57.8415°, -152.4316°. Document the location (verify lat/lon, photograph waypoint placard, etc).
3. Proceed from TP45 to TP19 (shown on map; 57.8529°, -152.4104°) and document the location (verify lat/lon, photograph waypoint placard, etc).
4. Proceed from TP19 to K14 (not shown on map) located at 57.8556°, -152.4195°. Document the location (verify lat/lon, photograph waypoint placard, etc).
5. Proceed to Search Area 3. Conduct a critical-separation, line-abreast sweep search of Area 3 to locate TP16 (see image for positive ID). Document the location (record lat/lon, photograph waypoint placard, etc).

6. Proceed to TP43 (not shown on map) located at 57.8509°, -152.4020°. Document the location (verify lat/lon, photograph waypoint placard, etc).
7. Proceed to Area 4 and await final rendezvous coordinates over VHF radio on SAR1 during normal comms schedule.
